**May 7, 2019**

**12:30-1:30 pm**

**203 Munroe Hall**

In this workshop, Professor Chatelain will discuss her experience writing two books with no clear archive, and how we can rethink our ideas about where stories should reside in order to see where they actually exist. This workshop will focus on the challenges of researching private corporations, children's history, and the need to redefine finding aids for ourselves.
